THINGS YOU THOUGHT YOU'D NEVER SEE--Work is under way on a 2.7 mile relocation of Kentucky Highway 15 just west of Whitesburg. A 266-foot cut, one of the deepest in the state, is being made through a mountain just behind the home of Kearney Day on Whitco Road, and dirt from the cut is hauled to

the other side of the road to help make a 90-foot fill. Heavy equipment hauls about 35 cubic yards of dirt and rock at a time (left) from the hilltop and dumps it in the fill area (right) The vehicles make about 70 trips a day at speeds of 40 miles an hour. Traffic is halted on Whitco road while the vehicles are crossing.

This bridge will cross the North Fork of the Kentucky River at Whitco as part of the highway construction project.

Just east of the road construction area, workmen are busy laying pipe for the new 40-unit Whitesburg Municipal Housing Project, which will provide brick rental housing for low-income families. The new road will go through the housing project area. The housing units will lie between the present Whitco road and present Kentucky 15.

COUNTY SCHOOLS HIRE 207 TEACHERS

The Letcher County Board of Education has hired a total of 207 certified teachers for the 1965-66 school year.

Supt. Dave L. Craft said applications still are being received, and he hopes the number of emergency teachers will be sharply reduced next year.

The list includes:
(Continued on Page 10)

Blackey to be on TV

A television program about the Blackey area will be shown at 7 p. m. May 7 on Channel 7 in Dayton, Ohio.

BAND CONCERT SET

The Whitesburg High School Band will present its spring concert at 7:30 p. m. May 7 at the grade school auditorium.

The program will include a varied selection of music from "Die Meistersinger," "West Side Story," "Lohengrin," "Afternoon of a Faun," "Black is the Color of My True Love's Hair" and others.

No tickets have been printed. Admission at the door will be \$1 for adults and 50 cents for students.

Sponsors said they hoped for a large turnout in honor of Director Frank Bickel, who is moving to Lexington and entering the real estate business at the end of this school term.

Measles shot needed

Measles is at epidemic stage in Letcher County, and children should receive vaccine to protect them against it, the Letcher County Medical Society said today.

The society noted that 30 children had been hospitalized in the past two months because of complications of the disease, which can cripple a child for life.

The vaccine provides lifetime protection against regular (seven-day) measles and should be given all children over nine months old, the society said.

Worms crawl out of Appalachian apple

The big red apple dangled by promoters of the Appalachian Development Act now turns out to have several big fat worms in it, and it looks as if the whole crop may be spoiled.

For years now, so-called experts by the dozen in Frankfort, Washington, Charleston, Nashville and other capital points have claimed that all that is needed to bring the Twentieth Century to the mountains is modern highways. Give us the Appalachian Development Program, they cried, so the roads can be built.

So effective was their cry that Congress did what they asked, and passed a development gutted of all pretense to true development in almost every field other than highways. But Congress did authorize an \$840 million highway construction for the Appalachian area.

But now has come the joker. They are not going to build the roads after all. Or perhaps more accurately, they are not going to build the kinds of roads needed in the places where they are needed.

The wrappings were removed from the rotten apple at a meeting in Washington of highway officials from the 11 states included in the Appalachian Development Act. The highway officials promptly agreed that instead of building adequate highways, they would build a road network in the mountains limited in design to 50 miles an hour. Further, they agreed they would, as an added economy, limit the number of underpasses and overpasses and interchanges in the road system.

What this means, then, is that instead of building new highways to present-day standards, the brains who hold the fate of Appalachia in their hands are setting about to build a highway network that is already 20 years out of date, and will be 40 years out of date by the time it is completed. In other words, they plan simply to straighten a curve or so.

It also has become clear that Eastern Kentuckians who have rested in the complacent belief that US 23, US 119 and the Whitesburg-Jackson road would be rebuilt have no real basis for this opinion. For the job of deciding where and when and what roads will be built has been taken out of the hands of the Kentucky Department of Highways. The decision-making now rests with E. S. Preston and Associates Ltd., a private firm which has been hired by the Appalachian Regional Commission to draw up a master highway plan for the Appalachian area. There is no guarantee that Preston will follow the wishes and desires of Kentucky officials, or that it will pay any serious attention to the needs and problems of Eastern Kentucky.

Almost as if to point up the ludicrousness of the situation, reports from Tennessee say that the first major highway in that state to be constructed under the Appalachian Development Act will stretch from Chattanooga, Tenn., to Lexington, Kentucky. We are somewhat surprised that they didn't say from Memphis to St. Joe, or from Natchez to Mobile, for one has about as much to do with the problems of the Appalachian area as the other.

One of the saddest aspects of the entire situation is the total silence on the part of Letcher County and Kentucky state highway officials, and from our congressmen. We have yet to hear State Highway Commissioner Henry Ward speak out and say he thinks Appalachian highways should be built to present-day standards. We have heard no statements from Governor Breathitt. Congressman Carl Perkins has not said a word, nor has County Judge James M. Caudill.

Yet, these are the men who must speak out boldly, now, if the situation is to be corrected. Their silence can lead only to a general public conclusion that they go along with the apparent Washington belief that Eastern Kentucky and the Appalachian area is a second-rate area deserving only third-rate roads.

New poor—old politics

The antipoverty controversy ought to include a comment by a man who virtually discovered today's American poverty. Economists were coming to similar conclusions, but it was Michael Harrington whose book, "The Other America," publicized the poor in the midst of plenty. Now, in the New York Herald Tribune, he re-emphasizes that today's poor are a "new poor."

It is the difference between the new poor and the old which complicates the already complicated administration of the federal antipoverty program.

The federal government has encouraged the participation of representatives of the poor in local responsibilities for planning and carrying out antipoverty programs.

Yet the sad possibility is that the representatives of the poor, even as the federal government seeks to foster their advancement, may be exploited by local politicians.

This is where Mr. Harrington's definition of the new poor comes in. Suggesting why the poor themselves do not do more to protect the poverty program from politicians, he writes:

"The old poor were immigrants who brought a culture and a solidarity into an economy which put grade school dropouts to work. The new poor are internal aliens--lonely old people, Negroes trapped in ghettos, the failures of the last generation and their children--who are in an impossible competition with automated machines. The old poor build political clubs and unions and all kinds of voluntary associations. The new poor tend not to belong to anything."

Thus Mr. Harrington concludes that strengthening federal control is not enough. He calls for help for the slums from those churchmen, students and others who have shown they can get together to work for civil rights. He would like to see them encourage the poor to work for their own advancement.

We do not enjoy the specter of class conflict that is raised by the organizing of economic groups, rich or poor. Yet voluntary association for constructive purposes has been one of the free world's prime answers to the Communist argument that private enterprise fails to be responsive to human need. It is surely better to help the new poor co-operate effectively in their own behalf than to leave them a prey to unscrupulous local politicians--or to those directed by Moscow and Peking.

CURRENT COMMENT:

Which war do you take--this one . . .

When Sargent Shriver introduced his top aides and gave their background at last week's hearing before the House Education and Labor Committee, he unwittingly revealed a lot about the War on Poverty. Shriver was reluctant to make the introductions and had to be prodded by Chairman Adams Clayton Powell. Among the men he introduced was Holmes Brown, a director of communications at Martin Marietta Corporation, a large defense contractor, who subsequently served with Ford Motor Co., the Secretary of Defense and Rockefeller Bros. The man in charge of administration in the poverty program is William Kelley, formerly director of contracts for NASA, the nation's space agency. Ferdinand Nadherny, the executive secretary of the program, was a high class Boston businessman with the Cabinet Corp., and Milton Fogleman, the man in charge of negotiating contracts with private industry to operate the job corps camps, was formerly in charge of all Air Force contracts.

Chairman Powell and his committee protested the absence of the poor from local anti-poverty committees, but no one questioned the preponderance of cold war and big business types at the upper echelons. Toward the end of his testimony, Shriver again linked the War on Poverty with men whose main contribution over the past decade has been to the cold war. "We have a subcontract right now with . . . the Institute for Defense Analysis," Shriver said. "We have about six people from there helping to develop a weapons evaluation system so that we in the war against poverty can begin to evaluate our weapons." The man in charge is Dr. Kernshaw, on leave from the Rand Corporation, the Pentagon's chief think-factory.

A Poverty Program with this kind of personnel could quickly become an adjunct rather than an alternative to the cold war. It is already on its way to anti-democratic paternalism and big business subsidies. One proposal that might stem this trend came from Rep. Albert Quie, a Republican member of Powell's committee. He proposed special elections at which the poor would elect their own local representatives to the anti-poverty boards. This received no support from the rest of the committee, but it is a first-rate idea. The present system of appointing the poor (and so far very few have been appointed) makes it easier to bypass the militant poor in favor of the more easily intimidated. Elections would give the poor an independent base of power and would create a more articulate, class conscious organization among them. A precedent for special elections is the Agricultural Stabilization Committees elected by farmers to run the farm subsidy program. An indication that the poor themselves may press for this kind of approach came from the Rev. Lynward Stevenson, who spoke for a Negro community in Chicago. "Our dignity can no longer be bought for a pittance or decided by others," he told the committee bitterly. "We would rather starve than survive as fawning pets of Ward Committeemen and city hall."

. . . or this one?

Appalachia isn't a rocket system, but its poverty programs are being launched as if it were.

Next month a leading space firm--Litton Industries--will tell the Appalachian Regional Commission how best to put those programs in orbit.

Litton is analyzing barrels of economic data on the 11-state region's 360 counties. It is dividing them into 50 to 70 sub-regions. It will pick out those with the most potential to grow and then suggest sometime in May where to zero in with public works.

This Litton antipoverty launch-

AT DEDICATION--These are the last pictures we plan to use of the recent dedication of the new Letcher County courthouse, but for the benefit of future historians, and the newspapermen who are present for the dedication of the next courthouse, we record (above) that former Gov. Bert Combs (in business suit) was the principal speaker and that he talked with members of the Army reserve, who took part in the ceremonies. Also that the Whitesburg High School Band, led by Miss Kathy Stallard (seated in foreground) performed, along with bands from other high schools in the county. These pictures were made by Mrs. Frank Bickel, Whitesburg.

Those present included Mr. and Mrs. Robinson, Mrs. Centers, Roy Burton Sr., Mr. Burton's brother Woodrow and family from St. Paul, Va., and the guest of honor.

Tensley Stamper entered the Harlan Hospital Monday. He is still having trouble from a back injury received in a mine accident about a year ago. He is the father of 10 children.

Mr. and Mrs. Coleman Meade took their son, Bobby, back to Louisville to a clinic. His condition has improved. The Meades visited their daughter, Mrs. Arvil Raleigh, at Roxana over the week end.

Miss Judy Sims, who works for Electric and Machine Co. at their Whitesburg office, left Sunday for a few days of work at the firm's office in Huntington, W. Va. She will return to her regular job in Whitesburg.

Mr. and Mrs. Johnny Sims and girls from Mansfield, Ohio, were

home visiting his mother and sister, Mrs. Mary Sims and Judy.

Miss Daisy Hush and Dorothy of Neon left Monday for a buying trip to Lexington.

Mrs. Hazel Sanders has been visiting her children for a week in Cincinnati. Her son drove down this week end and brought her back home.

Mr. and Mrs. Marvin Gilley of Aberdeen, Md., were in Fleming visiting her aunt and uncle, Mr. and Mrs. Jack Hounshell, and her cousin, Mrs. Archie Meade, Monday.

Recent visitors at the home of Mr. and Mrs. Elbert Hill were their daughter, Lois Everetts, and her children, Teresa and Elaine, of Knoxville, Tenn.

The Paul Bashams of Fleming were happy to have some of their children visit them over the Easter

holidays. There were their daughter, Mrs. Violet Webb, and daughter, Paula Maureen, Cincinnati; their son's wife, Mrs. John Basham, also of Cincinnati; and another daughter, Mrs. Frances Webb of Newport, called to wish her parents a happy Easter from Newport. Mrs. Basham, who is still grieving over the loss of a daughter, Mrs. Mildred Jenkins, says it helps very much to have the children come and visit or call her when they cannot come. The Bashams also received Easter greetings from a son, John, in Khartoum, Sudan, Africa. He is supervising construction work in Africa and

tells his parents it really gets hot in the desert--sometimes the temperature climbs to 130 degrees. When he is not on the job, he spends most of his time in an air-conditioned room. John has followed this type of work for several years and has been in many different countries, sometimes hot ones, sometimes cold ones.

Mrs. Mabel Kiser and Mrs. Paul Basham spent several pleasant hours at the home of Mrs. Ballard Meade last Wednesday. While visiting they helped Mrs. Meade quilt on a quilt she had up.

SERIOUS ILLNESS OF SEVERAL CITIZENS SADDENS RESIDENTS; OTHO BENTLEY HOME FROM HOSPITAL

Millstone residents were sad this week because of the serious illness of several neighbors.

Uncle Ben Franklin is very ill in the Jenkins clinic after suffering a stroke Sunday afternoon. All the children have been here but Watson, who is expected this week. The stroke affected Mr. Franklin's right arm, but not his entire right side.

Uncle Shermie Profit also suffered a stroke. His whole right side was affected and he is not doing so well. He was taken to the Harlan hospital. Mr. and Mrs. Joe Profit, Mr. and Mrs. Alex Profit and Mrs. Louise Collier, all of Millstone, went to see him this week, as did Conley Profit of Jackson and Mrs. Jesse Collier of Louisville. Mr. Profit was never married and made his home with his sister, Mrs. Louise Collier.

Wendell Meade still is critically ill in North Carolina. His parents, Mr. and Mrs. Sherman Meade, went to see him over the week end. At present he is suffering from pneumonia.

Otho Bentley is home from Harlan and is doing fair. All his children have returned to their respective homes except Freddy and he will leave next week for his army post in Georgia. Jimmy Bentley went with his twin brother, Kan, back to Cleveland to find work.

Henry and Brinda Baker Bentley have a new baby boy, their first son and second child.

We extend our deepest sympathy to the family of Uncle Zack Bentley, who died in the Harlan hospital this week.

Blaine and I with Mr. and Mrs. Ishmael all enjoyed the day with Mr. and Mrs. Willis Kiser and family in Hazard Sunday. On the way we stopped for a visit with relatives in Carr Creek and visited the airport at Colson. If you have not been to the airport yet, it is well worth the trip up the mountain.

An iron fence is being built around the airport. Tommy Everidge of Mayking is doing the work.

Our grandson in Cleveland, Ronald Bentley, has arrived at the long-awaited day, his ninth birthday. For months he had been at his parents to call the YMCA to see how old he must be before he could be a member of the "Y". So, he belonged to the cub scouts and awaited the day until he reached the ripe old age of nine, and now he has been to several YMCA meetings. When we are young it seems so nice to be grown up, and when we are old it seems so nice if we could be young again.

Friends of Willie P. Webb of Sergeant will be sorry to learn he is very sick at the Whitesburg hospital.

Dinner guests of the Ballard Meades after church Sunday were Mr. and Mrs. Oscar Hall, of Beaver, Elder Lawson Hall and Mr. and Mrs. Lloyd Meade of Millstone.

The Bill Sergents had their children all home last week for the first time in almost four years. There were Mr. and Mrs. Julius Steele (Norma) of Arkansas and their three children, J., Nell and Mike; Mr. and Mrs. Bill D. Sergeant and children, Lisa Carol and William Douglas, of Roanoke, Va.; Mr. and Mrs. Ronald Sergeant, of Lebanon, Ohio. The Sergents went on to Lexington for a visit with her children, Mr. and Mrs. Blaine Polly. The Pollys came back up for a day's visit with the elder Sergents, and Mr. and Mrs. Junior Cook of Haymond were down for a visit.

Mrs. Thelma Lundy, teacher of Lower Millstone School, has been ill this week. Mrs. Ruby Ramsey of Whitesburg is teaching in her place.

Blaine and I enjoyed meeting and talking with Bob Shepherd from Quicksand last week. Mr. Shepherd is a good conversationalist and is good company. Mr. Shepherd said he is the only child, but also the 10th child, the 13th child and the 22nd child in his family. He explained. He is the only child of his parents. His mother had nine children by a previous marriage, and so he was her tenth. His father had twelve children by a

previous marriage so he was his father's 13th child. When the children were all added together he was the 22nd child. Shepherd is a horticulturist with the University of Kentucky.

Mrs. George Collins has moved into the Corbin Hoskins place above the Maryland Bates home place.

Allen and Sharon Wright Riddle now are living in Lexington where Allen, a graduate of Mayo Vocational School, is employed. Before settling down to their home in Lexington they visited her parents, the Jesse Wrights, at Neon Junction and other relatives in around Neon, and Mr. and Mrs. Arnold Playforth, Louisville, and Mr. and Mrs. Dennis Picklesimer, of Lexington.

Mrs. Jane Mullins and her daughter, Mrs. Edna Johnston, both are home after being patients in the Jenkins clinic.

Mr. and Mrs. William Newsome both are doing fine after being sick about all winter.

Billy Stamper, son of the Willie Stammers, is among the Whitesburg seniors to visit Washington and the capitol this week.

Sunday dinner guests of Maude Hodkins were her sister and her husband, Mr. and Mrs. Robert Trail, of Bristol. While here they visited the family cemetery.

Thursday supper guests of Mr. and Mrs. Jimmy Richardson were her father, Hennie Adams; Mrs. Minnie Collins, her daughter and her husband, Mr. and Mrs. Bill Swinns and their son, Billy, of Michigan; Mrs. Arlie Sexton, of Sandlick, and Mr. and Mrs. William Henry Richardson, of Whitesburg.

Week end guests of the Sidney Maggards were a newhew of Mrs. Maggard, Mr. and Mrs. Otis Sturgill of Flint, Mich., and relatives of Mr. Maggard--Mr. and Mrs. David Jarrett and two children of Detroit and Mr. and Mrs. Raymond Sturgill and Mr. and Mrs. Monroe Sturgill and daughter of Harrison, Ohio.

Mr. and Mrs. Jimmy Wright (Joan Hall) and baby Karla have moved into the home across from the W. D. Bentleys.

Supper guest of the J. S. Holbrooks was their son-in-law, Jim Boyd of Lawrenceburg.

Mrs. Martha Jane Potter, Mrs. J. S. Holbrook and Mrs. John Bentley of Kona all drove to Harlan to visit sick folk in the hospital there.

Mr. and Mrs. Curtis Weller of Pineville were visiting relatives here this week end.

Mr. and Mrs. J. S. Holbrook and Mr. and Mrs. Hayse Profit all drove up on Pine Mountain

for dinner one day last week. What lovely weather for eating out. And did you ever see the scenery more lovely?

Mrs. Icy Newsome is in Pikeville this week with her ill daughter, Mrs. Freddy Baker, the former. (Continued on Page 9)

CARD OF THANKS

We, the family of Foister Collier, wish to take this means to express our appreciation and gratitude to those who were so kind and helpful during our hours of grief and loss. Foister was so dear to us and his sudden death so unexpected our heartache was almost more than we could bear. The comforting words of the ministers, the kindness of neighbors and friends, who brought food, sat with us during the dark hours of the night, those who dug the grave and all the kind and thoughtful words and deeds carried us through our grief and heartache. We want to thank each and every one who helped us in any and every way, and to express our appreciation for the many beautiful floral offerings that were given, and to Archie Craft of the Moore and Craft Funeral Home and his employees for the tender care of our loved one. We will long remember all of the kindness and comforting help you each gave to us and pray that God will bless and keep you.

JAILER

One of the pleasant looks of the present primary campaign is that the Democratic Party is not tearing itself to pieces in all directions. This makes it possible that the Democrats can nominate the very best list of candidates for public office to give Letcher County what it needs and deserves--the best possible service by officials to the people.

This happy unity has been greatly furthered by Claude Collins, the most steady and most enthusiastic Democrat in the county. This Democratic faith has been Claude's byword.

He worked hard for Bert Combs and Ned Breathitt. He worked hard for John Kennedy and Lyndon Johnson. All these great men were winners and Claude feels that his work in keeping the Democratic Party sticking together and working for the best man has paid off.

Now Claude is a candidate for Jailer of Letcher County.

Now it is time for the county's Democrats to get together and show their appreciation of Claude's long hard work by nominating him for jailer in the May 25 primary.

Then the Democratic Party can be sure that Claude will be a winner for his party in November.

Nominate and elect BEN A. ADAMS as your JAILER

Four years ago when I asked you to elect me as your jailer, there was a tremendous job to be done in cleaning up the old Jail and Courthouse and keeping it in the best possible condition and in caring for those placed in my charge. I have worked continuously in fulfilling this trust you placed in me.

Now that we occupy the new Jail in the beautiful new Courthouse, I see even a greater job to be done in keeping this new building clean and beautiful.

You have been good to me and I have tried to do the job as you wanted it to be done--with hard work and with patience and understanding for those in my care. I would like now to serve you for four more years with honest service as your jailer.

Your friend,

Re-elect

W. R. BILL JORDAN

Democratic candidate
for STATE REPRESENTATIVE
Letcher County

Listed below are some of the achievements that I have helped accomplish as your State Representative:

1. Construction of a 45-acre stocked fishing lake.
2. Establishing a Regional Library in Letcher County.
3. Resurfacing many roads.
4. Construction of a bridge at Burdine School.
5. \$500 increase in teachers' salaries.
6. Improvement in teacher retirement system.
7. \$750,000 appropriation which helped to keep Whitesburg Appalachian Hospital operating.
8. Legislation that doubled the Rural Highway money.
9. Starting construction of Mountain Parkway from Whitesburg.
10. Construction of a new State Highway Garage.
11. Wilson Wyatt Trail atop Pine Mountain.
12. Improved legislation on our compensation and unemployment laws.
13. A supporter in Frankfort for construction of airport at Colson.

These things have happened and are not promises. I believe that with my experience in the State Legislature and in working with the Breathitt Administration, I will be in position to further help Letcher County. I will run on my record and I will continue to fight for the good of Letcher County and its citizens as I have done in the past.

NATHAN BAKER

Democratic candidate for
SHERIFF

I would like to take this opportunity to tell the people of this county, especially the businessmen, for what I stand if elected sheriff.

I believe there should be an officer on duty in the sheriff's office 24 hours a day. I realize the problems you business people have in getting an officer when trouble hits. One of my deputies, or myself, will be on duty around the clock.

I believe the deputies in each community should be picked by the people themselves. I will go into each community and let the people that live there help me pick a deputy that will suit their own needs. I will have only deputies that are known to be honest and with high moral standards on my force. I do not believe in fee grabbing and any deputy found doing so will be dismissed.

I also intend to have a deputy to direct traffic at funerals, church gatherings, and other large social events in your community.

I want to state that if labor trouble should arise while I am your sheriff, I will uphold the law to the best of my ability without prejudice to either side. There is only one side to the law, and that is the right side.

I cannot get to each of you personally before the election, but I am asking all of you to give me a chance to show you what a young man can do as sheriff of Letcher County by giving me your vote on May 25.

SHERIFF

Rumors are being circulated throughout the county by some scared politician that I have given up on the race for Sheriff of Letcher County. This is an outright lie. The only way I will give up is by being eliminated by the voters.

I can only rely on friends to support me. I do not have money to pay \$25 per day for election workers or \$5 per day or maybe it is \$10 per day for people to hand out cards. Thank God all voters in Letcher County don't sell their vote. The people with all this money to buy votes with in my opinion had better hang on to it--they may need it in their old days.

Many persons in all walks of life have told me they are with me, Ministers, Miners, Masons, Garage Owners, Farmers, just to name a few, these are people who can be relied on.

It will not be possible for me to get to see all of the voters before the election, as I would like to. I have to work to support my family. I can only get around on the week end or after work hours.

I am employed by the Beth-Elkhorn Mine Corporation at mine #22 Deane, Ky. I have worked for the Elkhorn Coal Company at Kona, Sandlick Coal Co. and Elkhorn-Jellico Coal Co. For the past 15 years I have worked for Consolidation and Beth-Elkhorn at Deane, Ky.

ANDREW TAYLOR, REPUBLICAN CANDIDATE FOR JAILER, SPEAKS TO THE VOTERS

DEAR VOTERS:

Some time ago I announced my candidacy for the Republican nomination for jailer of Letcher County. I did that in good faith and in complete confidence in the voters to seriously and conscientiously consider my cause.

I am a poor man and have been for several years disabled to do manual labor by reason of poor health, which was brought about by twenty years of hard labor in the dark damp coal mines. However, the loss of health and employment didn't prove disastrous. My wife and I were forced to resort to off jobs of whatever we could find, that we might remain self-reliant and self-supporting.

Oftimes the future looked dark and desperate for us, but we wouldn't give up. Again and again, I have heard my wife say, "Andrew, I know you have tried. I know that you have done your best; don't give up. Let's trust God to help us to help ourselves." My wife got odd jobs here and there working in private homes, stores, firing furnaces for business places and doing work as janitor. We are not afraid of work and we try to be thankful for whatever we can find to do.

I hold no ill will against my opponent, but he doesn't need the job. He is now finishing his fourth year as jailer and I am informed that he has held high salaried positions most of his life. I am also reliably informed that he owns valuable real estate in Lexington, Ky., which returns a yearly rental of approximately \$5,000.

In the beginning of this campaign my opponent showed very little interest in another term as your jailer. Rather he seemed to devote his time in dilly-dallying with the idea of making himself the party's titular head and make the race for county judge. But, for some reason better known to him, he abandoned the idea of entering the race for judge.

Next we see him dilly-dallying and toying with the idea of becoming a candidate for county court clerk. No doubt he aired this proposal out thoroughly and perfectly. But once more for some reason better known to him, he backs away from the clerk's race. It is also rumored that he took a long steady wistful look at the sheriff's race, but, once more for some reason better known to him, that idea faded away.

Finally, with time running out on the day before deadline to file, my opponent ceased dilly-dallying and filed for jailer. Perhaps thinking this was the only prize that he might be able to capture.

I am not trying to sling mud. I am only speaking my convictions along with other Letcher county citizens. I want to advise those concerned, that if my opponent thinks he has found a soft spot in this political football, he may have another thought coming. I am in this race to win, and win I will, for I truly believe that the people are on my side.

LET'S ELECT FULTON

A great many young--and old--friends of Johnny Fulton have decided we do not like the way things are being handled and have decided that we should put him in as Letcher County Judge.

It is not right that the office of county judge should be the center of a political setup that uses the poverty of the people as a political weapon.

It is not right for a political group to threaten our poor people with even the suggestion that if they do not vote right their subsistence checks--their bare living--will be cut off.

It is not fitting for a public official to claim sole credit for public improvements like the new courthouse--because they were accomplished by all the people of Letcher County despite the foot-dragging by top public officials which delayed the work for two years.

We, the people, decided that Johnny Fulton could and would change things.

He has proved through long public service that he is a friend of the plain people--not the pet of a little elite clique. He has proven himself capable, open-faced, honest and straight-forward in his dealings with everybody.

We know he will not close the door on part of us while double-dealing with the rest of us.

We know he will not use public office for the enrichment of any small group, or for business advantage.

We need a man as county judge who will push for the things Letcher County needs--who will not stall around until he is sure of where the political advantage can be worked to his advantage.

The people of Letcher County--including the poor and needy and those of us who are too proud to beg--need a friend in the highest office in the county.
